RESPONSE TO INTERVIEW SUMMARY

Sir:

Applicants thank Examiner Evanisko for the courtesy of a personal interview with him on November 6, 2007. The purpose of the interview was to discuss the Office Action dated July 9, 2007 and the responsive Amendment filed October 31, 2007.

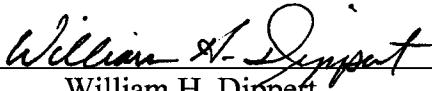

Applicants acknowledge receipt of an Examiner Interview Summary issued by Examiner Evanisko, which fairly summarizes the interview. More particularly, at the interview Applicants' representatives made a presentation to demonstrate the advantages of the present invention and how the present invention is distinguished from the prior art. The Examiner seemed receptive to Applicants' position that the amendments to the claims in the recently filed

Amendment distinguish the claimed invention over the Mund and Botvidsson references. Further, it was understood that the outstanding rejection of the claims under 35 U.S.C. § 1.112, first paragraph, for lack of enablement, would be withdrawn

Reconsideration and allowance of all the claims herein are respectfully requested.

Respectfully submitted,

November 6, 2007
